### Full Job Description:

At TechNova Solutions, we're at the forefront of digital transformation, providing innovative IT solutions to Fortune 500 companies. Join a dynamic team where your ideas drive real impact.

### Key Responsibilities:

- Evaluate current IT systems, identify gaps, and recommend improvements
- Collaborate with cross-functional teams to understand business requirements
- Design and implement system workflows, data models, and integration strategies
- Monitor system performance, troubleshoot issues, and ensure data security compliance
- Develop technical documentation, including process flows and user guides
- Support IT projects, from initiation to post-implementation review

### Qualifications:

- Bachelor's degree in Information Technology, Computer Science, or related field
- 3+ years of experience in IT systems analysis or a related role
- Strong knowledge of system architecture, databases (SQL), and cloud platforms (Azure preferred)
- Proficiency with scripting languages (PowerShell, Python) and automation tools
- Excellent problem-solving, analytical, and communication skills
- Certifications like CompTIA Security+, Microsoft Certified: Azure Administrator, or similar are a plus

#### Preferred Skills:

- Experience with Microsoft 365, Power Automate, and Dynamics 365
  - Knowledge of ITIL frameworks and agile methodologies
- 

#### Benefits:

- Competitive salary with performance bonuses
  - Comprehensive health, dental, and vision insurance
  - 401(k) with company match
  - Professional development opportunities
  - Hybrid work environment
- 

#### How to Apply:

Submit your resume and a tailored cover letter explaining why you're a perfect fit for this role. Applications without cover letters may not be considered.
